MINISTRY OF TRANSPORT AND COMMUNICATIONS
DIRECTORATE OF WATER RESOURCES AND IMPROVEMENT OF RIVER
SYSTEMS
AYEYARWADY INTEGRATED RIVER BASIN MANAGEMENT PROJECT
TERMS OF REFERENCE
FOR
C1.4.8.d-NATIONAL ENVIRONMENTAL OFFICER

Duration of assignment: The Consultant will receive an annual full-time contract. The contract may be renewed on annual basis depending on Consultant performance and Project requirements.

General Scope of Services: Provide assist technical knowledge, contract management and policy advice related to the environmental safeguard aspects of the Project to the Project Director, Component Directors

1.General Information

The Ayeyarwady Integrated River Basin Management Project (AIRBM) is a five-year development project (2015-2020) administered by the Directorate of Water Resources and Improvement of River Systems (DWIR), Ministry of Transport and Communications, with credit from the World Bank. The objective of the project is help Myanmar develop the institutions and tools needed to enable informed decision making in the management of Myanmar's national water resources and to implement integrated river basin management on the Ayeyarwady, while immediately enhancing the river's productivity with "low/no regrets" investments in the hydro-meteorological observation system and services (to support agricultural productivity and water-related disaster risk management) and in navigation enhancements (to promote sustainable transportation) on the Ayeyarwady.

The AIRBM has three inter-related components with Component 1 aiming at developing institutions and tools needed for informed integrated river basin management; Component 2 delivering integrated hydro-meteorological warning and advisory services; and Component 3 enhancing navigation for trade and livelihood benefits.

2. Overview of Safeguard Management

According to the World Bank Safeguard Policy OP/BP 4.01, the project is considered as the category "A" type project due to its spatial extent, its focus on integrated river basin planning and the assessment of subsequent infrastructure investments; the civil works being carried out for the construction of office buildings in Yangon, Mandalay and Nay Pyi Taw and navigation enhancement interventions such as dredging and river training civil works (Subprojects and

micro projects). Such implementation activities may generate site-specific environmental and social impacts and may result with resettlement. The Environmental and Social Management Framework (ESMF) was developed by the DWIR/NWRC Secretariat for the project providing the overall ESIA process and safeguards policy requirements to be undertaken during project implementation once specific project interventions are known. The PMU- Safeguard Unit is the responsible unit for implementation of the ESMF and its provisions, whereas the day-to-day management of the prevention/mitigation activities will be overseen by the Component Management Units (CMUs). All environmental and social safeguard instruments including the ESIA reports and site specific ESMPs is required to adhere at the respective activity in line with the National EIA procedure and AIRBM ESMF.

3. Project Management Structure

Directorate of Water Resources and Improvement of River Systems (DWIR is the implementing agency of the AIRBM. Project Management Unit (PMU) is organized under DWIR and DG of DWIR has managerial and financial oversight of the Project.

The AIRBM Project Steering Committee (PSC): Previously, the National Water Resources Committee (NWRC) would provide strategic guidance to the AIRBM and receive regular updates on progress. For purposes of immediate project oversight, an AIRBM Project Steering Committee (PSC) was formed from the NWRC to review and advice on annual progress reports, work programs and key processes and outputs. The PSC was chaired by the Deputy Minister, MoTC, which consists of Director General of DWIR, Director General of DMH and Chairperson of the Advisory Group of NWRC.

Project Management Unit (PMU): A PMU has been established under the DWIR, and is led by a Project Director. The Project has three components and each component is led by the respective Component Director. The Project Director is responsible for project management and technical coordination, as well as procurement and financial management, monitoring and evaluation, and compliance with environmental and social safeguards for all project components. The PMU-Safeguard Unit specifically responsible for environmental and social safeguard. Financial management and procurement functions will be undertaken by existing staff of DWIR, with additional support from consultants under the project as needed.

4. Consultant Assignment Objectives and Scope

The Consultant will serve as the National Environmental Officer within the Safeguard Unit (PMU) of the AIRBM Project. The Consultant will assist in dealing with environmental aspects of the AIRBM Project under the guidance of the Senior Safeguard Specialist in coordination with technical team. National Environmental Officer will assist in undertaking and dealing with all environmental related requirements of AIRBM Project under Environmental and Social Management Framework and supervise all activities related to the Environmental and Social Safeguards, as per Environmental and Social Management Framework of the project and World Bank safeguard requirements.

Specifically, the Consultant will be responsible for the following tasks:

- Assist and participate in determining and tackling the environmental safeguard issues emerging during implementation of AIRBM Project, and preparation of relevant documents and reports.

- Participate in the preparation and implementation of adequate safeguards instruments (e.g. Terms of Reference, Environmental and Social Impact Assessment, Environmental and Social Management Plan, Resettlement Plans, Indigenous Peoples Plans) as per the Environmental and Social Management Framework of AIRBMP
- Assist to the Senior Safeguard Specialist in design and implementation of environmental safeguard related technical assistance and analytical work.
- Assist to the Senior Safeguard Specialist in supervision and monitoring the environmental issues of overall project implementation.
- Assist the Project Management Unit (PMU) in the preparation of relevant safeguard document (i.e.) Expression of Interest, Request for Proposal, Terms of Reference as needed
- Assist in the design, preparation, and implementation of the Safeguard Training Program for the AIRBM, in coordination with World Bank Task Team.
- Provide technical inputs and quality control of Environmental and Social Monitoring reports, including timely information on the implementation of Environmental and Social Management Plans and status of analytical work under the guidance of Senior Safeguard Specialist;
- Assist in preparation of the reports on the overall performance of the AIRBM projects with regard to environmental issues under the guidance of the Senior Safeguard Specialist;
- Assist in technical review on certifying process for payment to contractor and consultant during contract implementation;
- Assist the Project Management Unit and DWIR in organizing and participating the Project-related missions, meetings, consultation and workshops closely working with social officer.
- Any other environmental safeguard-related activities as required by the AIRBM Project Director

5. Consultant Experience Requirements

1. Master degree in environmental science, environmental engineering and management, natural resource management or other relevant field
2. At least 5 years of professional experience in water resource management, environment management and natural resources conservation sectors
3. Experience with World Bank Group Operational Policies and Performance Standards is preferable
4. Solid understanding of Myanmar Water Resources, Environmental sector and socio-economic and political issues around development projects in Myanmar is crucial;
5. Fluency in English and Myanmar language and strong technical report writing skills and communication skills is essential;
6. Good computer skill particularly in Microsoft Office (Excel, Word, Power Point, PDF) is necessary

7. Respect to different gender, social classes and all ethnic groups of Myanmar and excellent interpersonal skill is required.
8. Ability to work in a challenging, time sensitive, rapidly changing environment, and to work collaboratively with a diverse team is crucial

6. Administrative Arrangements

The assignment duration will be for 12 months, with the possibility of extension based on the performance appraisal and mutual willingness to continue with the Assignment. The assignment will be located in the DWIR office in Yangon and will include frequent travel to the project sites between Mandalay and Nyaung U.
